## **WELCOME TO THE PATIENT NOTIFICATION SYSTEM**

The Patient Notification System is provided at no cost and is a confidential, 24-hour communication system providing information on plasma-derived and recombinant analog therapy withdrawals and recalls via email, telephone, or fax.

The system was created to provide consumers with a single, convenient, and confidential source for up-to-date therapy withdrawal and recall information.

Led by the Plasma Protein Therapeutics Association (PPTA), the Patient Notification System was developed by the manufacturers of plasma therapies with direct input from consumers.

We welcome your comments on the  
Patient Notification System.

### **You may address comments to:**

PNS Administrator, PPTA  
147 Old Solomons Island Road, Suite 100  
Annapolis, MD 21401

Or call 202.789.3100 and ask for the  
PNS Administrator.
